🖌 It has been another busy week in school, year 2 have been busy ubdertaking btheor Sats tests after year 6 completed theirs last week. I am thrilled to see the effort made by year 6 and the support of our parents which meant we had 100% attendace in year 6 last week – amazing, lets keep this up! Year 6 have now started their Respect programme which focuses on Communty, bullying, diversity and hate crime which will help equip out year 6 children in readiness for their transistion to high school. It is important that we see excellent attendnce for our year 2 children theroughout May as we they continue to complete their Sats tests, let see if we can do as well as year 6!!

Tear 1 also had atrip out to St Johns church this week too, why don't you ask them to see what they have been learning about.

We will be saying good bye to Miss Hargreaves next week as she leaves us to take up a full time position with her other employer. I would like to thank Miss Hargreaves for her time at North Walkden and wish her all the best.

The Dangers of Vaping: I am very aware that our older children in school may end up in a position of being offered a vape from older children whilst out playing by other children in the community. Therefore I would like to highlight the dangers of vaping and the health issues it can create along with some helpful advice if you need to speak to your child https://kidshealth.org/en/parents/e-cigarettes.html I would also urge parents to speak with your children to equip them with knowledge and information on how to deal with peer pressure. Please take a look at the website below on learning to say no. There are tips and advice on how to handle that situation - share your worries, tell a trusted adult, say 'no', have an escape plan (reason to leave the situation you are uncomfortable) and there is the opportunity to talk to a child counsellor through Child Line.

https://www.childline.org.uk/info-advice/friends-relationships-sex/friends/peer-pressure/

The Respect programme (run by youth service) which has started this week in year 6 will also touch upon peer pressure in the sessions.

Friends of North Walkden: Our parent governor Tammy Green is looking for your help to put together a team of parents and their families who can support school with fundraising. Please take a look at the flyer and get in touch if you feel you can help out.

☆ ☆ Since the introduction of the measles vaccine in 1968 it is estimated that 20 million measles cases and 4,500 deaths have been prevented in the UK. Measles is highly contagious and can lead to complications such as ear infections, pneumonia, and inflammation of the brain which require hospitalisation and on rare occasions can lead to long term disability or death.

Spending 15 minutes or more in direct contact with someone infected with measles is enough to catch the infection. People whose immunity is compromised, pregnant women and unvaccinated children are at increased risk of severe disease.

Measles symptoms to be aware of include:

- high fever •
- sore, red, watery eyes •
- coughing •
- aching and feeling generally unwell •
- a blotchy red brown rash, which usually appears after the initial symptoms.

Anyone with symptoms that could be measles is advised to stay at home and phone their GP or NHS 111 for advice, rather than visiting the surgery or A&E. This is because measles spreads very quickly and easily and so it is important to try and prevent the illness spreading further.

People who have symptoms should also especially try to stay away from areas where you could come into contact with vulnerable people such as schools, nurseries or care homes.

The free MMR vaccine is a safe and effective way of protecting against measles, as well as mumps and rubella.

For more information about measles, see the nhs.uk website here.
